

EPOCH Basic User Guide

What is EPOCH?

EPOCH is the **ePortal for Online Clinical Help** that gives health practitioners, ancillary staff and students working for the Tasmanian public health service online access to high-quality health and social care information resources and the clinical evidence base to support decision-making, service planning, education and research.

Resources include:

- medicines information
- point-of-care tools
- clinical guidelines and standards
- electronic journals and textbooks
- research databases
- specialty guides

Where is EPOCH located?

EPOCH is directly available at epoch.health.tas.gov.au

An EPOCH link is also available:

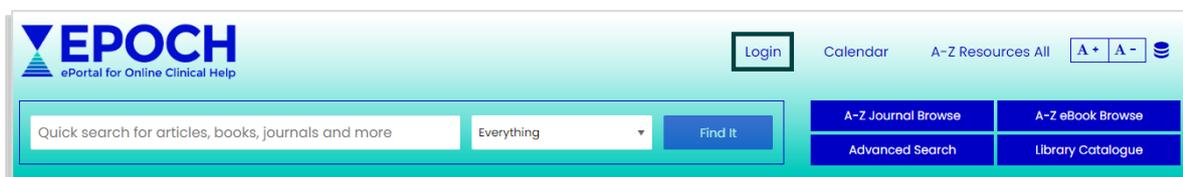

- On each Department-networked computer desktop
- From **Shortcuts & Applications** drop-down list on the Department/Tasmanian Health Services intranet homepage at doh.health.tas.gov.au/intranet

EPOCH registration and login

Registration is NOT required for staff with work email addresses ending:

- @ths.tas.gov.au
- @health.tas.gov.au
- @ambulance.tas.gov.au

Staff access a personal EPOCH account onsite and offsite by clicking the **Login** link located top right on the platform's homepage and entering **work login username and password**.

Other users must register for EPOCH access at epoch.health.tas.gov.au/registration-form

How do I search EPOCH?

There are search and browse options at the top of EPOCH's homepage.

About *Quick Search* and *Advanced Search* options

1. Quick Search *Everything* option

Use *Quick Search Everything* for a basic, exploratory search across multiple EPOCH resources and the health and care evidence.

2. Quick Search drop-down menu

Quick Search offers the default *Everything* option and four additional options for finding resources and research:

1. **Everything**

The default keyword search for finding known EPOCH resources, or locating journal articles, journals, book chapters and books

2. **eBooks**

Keyword search for Department-licensed online books only

3. **DOI Lookup**

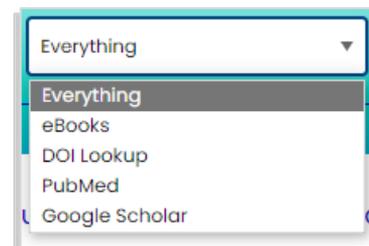

Targeted search for an article or book chapter with a known "Digital Object Identifier" (DOI)

4. **PubMed**

Keyword search in largest database of biomedical research

5. **Google Scholar**

Keyword search for scholarly literature, outside EPOCH on the open web

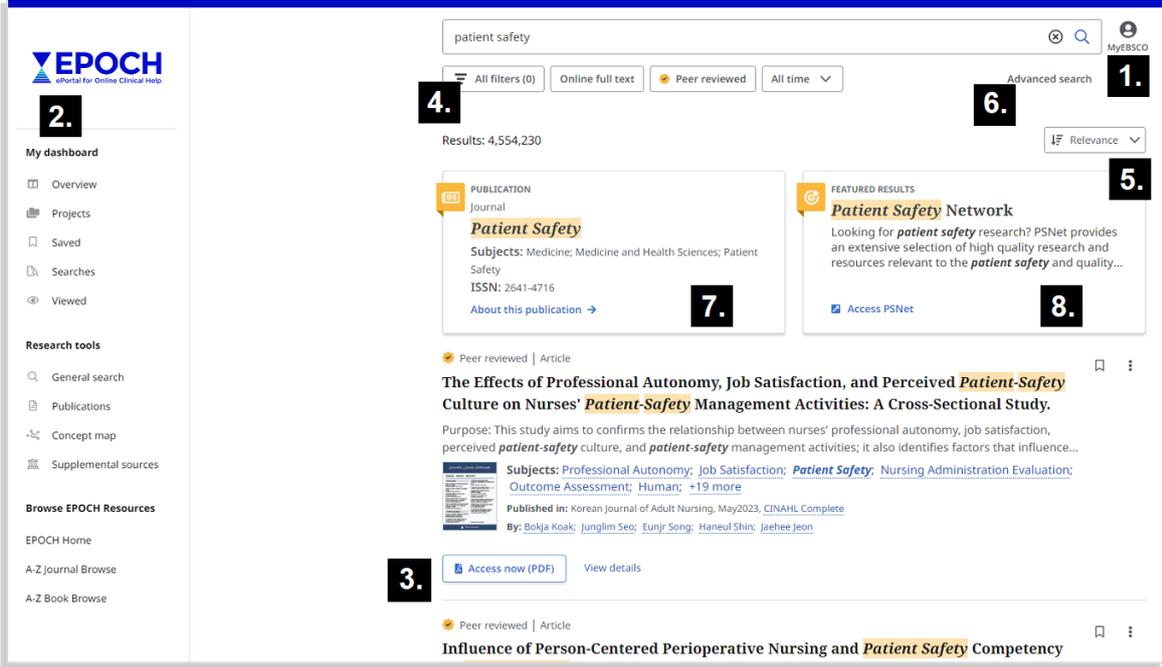

3. Advanced Search

Use *Advanced Search* for a more precise and detailed search. It offers features that help locate more relevant results, including:

- Predicts your search terms and offers additional related terms
- Pre-limits your search to include specific types of literature
- Pre-limits your search to exclude literature you do not want

Results page for *Quick Search Everything* and *Advanced Search*

The screenshot shows the EPOCH search results page for the query 'patient safety'. The interface includes a search bar at the top with the query and a 'MyEBSCO' login button. Below the search bar are filter options: 'All filters (0)', 'Online full text', 'Peer reviewed', and 'All time'. The results count is 'Results: 4,554,230'. On the left is a 'My dashboard' sidebar with options like Overview, Projects, Saved, Searches, and Viewed. The main content area displays a 'Patient Safety' journal entry (7) and a 'Patient Safety Network' featured result (8). Below these are two article listings: 'The Effects of Professional Autonomy, Job Satisfaction, and Perceived Patient-Safety Culture on Nurses' Patient-Safety Management Activities: A Cross-Sectional Study' (3) and 'Influence of Person-Centered Perioperative Nursing and Patient Safety Competency' (6). A sorting dropdown menu is set to 'Relevance' (5).

1. MyEBSCO login

Personalise your search session by logging into your *MyEBSCO* account. All EPOCH users have a *MyEBSCO* account to save work.

2. MyEBSCO dashboard

Create projects, as well as collect, organise and save items you find and searches you use in EPOCH search sessions.

Read EPOCH's *MyEBSCO Dashboard User Guide* for more information
epoch.health.tas.gov.au/guides-tutorials/myebSCO-dashboard-folder

3. Search results

List of results retrieved from your search. Links are provided when full text is available.

4. Filtering or limiting search results

Options for reducing your set of results by specifying a date range, a type of resource and more.

5. Sorting search results

View results by most relevant or most recent.

6. Advanced Search

Option for a more precise, detailed search.

7. Publication results

When your search retrieves a journal or book that is part of the Department online collection.

8. Featured results

When your search retrieves a recommended EPOCH product or research database.

About other search and browse options

4. A-Z Journal Browse

Search or browse our collection of online journals by title, or subjects and specialties.

5. A-Z eBook Browse

Search our collection of online books by keyword or browse across specialties and focused collections that highlight new titles, core titles, and more.

6. Library Catalogue

Statewide catalogue of the Department's print collection located at our North, North West and South Library sites. Allows staff to search, discover and request books, reports and other printed material collected and maintained by Library Services.

FAQs

Find quick answers related to access, authentication, troubleshooting individual resources, and other general queries at epoch.health.tas.gov.au/faqs

Training and help

EPOCH provides a range of training options to staff for support finding health and care evidence.

Visit epoch.health.tas.gov.au/training to:

- Check scheduled online training sessions
- Arrange individual or group training sessions
- Organise a consultation with Library Services
